

In case of EMERGENCY...

*There are
four things you
should know...*

1) Your emergency phone number. Mark it in the space on the phone.

2) Your address and phone number.
address: _____

phone no. _____

3) Why you called:
the problem is...

and **4)**, if your parents are not home, know how to reach them!

Some places have a special number to call in all emergencies. If your area has this special number, tape it to your phone so it will always be handy. If your area doesn't have a special number, the fastest way to get help in an emergency is to dial "0" and tell the operator what the problem is. Stay on the phone and don't hang up until the operator has gotten the person you need to talk to and you have been told what to do.
