

Calvin and Amber live on a farm. A farm is a great place to live or just visit, especially when you know all about

Farm safety!

Be safe around machinery.

Keep a safe distance from moving tractors. Don't go near machinery that is still running. And, don't touch the gears or play on any farm machinery.

Be safe around the animals. Don't tease them, and when one does not want you to come near, stay back. Don't play with the bulls or ride an untrained horse. Never stand behind a horse.

Don't go near cows during calving season. A mother cow is very protective of her young and may act differently towards you. If you want to see the calves, go with an adult.

Be careful of barbed wire fences!
